We understand that not knowing what your future holds can be scary, and if you’re interested in games, you know that careers in the industry feel uncertain. That’s why the Game Experience focuses on covering all aspects of the industry to give you direction in what you want to pursue. We also understand that college is expensive, which is why we want to provide a space for students to explore their passions, without the hefty price tag.

That’s why we cover all aspects of the industry to help you make informed decisions in what you want to pursue.

If during the program you discover that making games isn’t for you, that’s great too. You’ll know where you want to go next, and the life and business skills you learn during the program are applicable to all careers and industries.

But above all, we want to give you the knowledge you need to take the next step of life with confidence.
GAME DEVELOPMENT PROGRAM

Ever want to learn what it's really like to make a game from start to finish? Here's your chance! We'll take you through every step of the game development process, from initial concept to fleshing out mechanics to the shipping of the final product. You'll hear stories from professional game developers about the hardships and creative victories of the development process, and by the end, you'll know whether or not this is the career for you.

Learn from Pros
All of our instructors have professional experience in game development, so you can learn from experts what you need to make it in this competitive industry.

Experience the City
You won't just stay on campus during the program; you'll visit some of the most popular destinations and try some of the best food the city has to offer.

Hands-on Projects
Apply your newfound skills to your own game project and discover where you fit best in the world of games.
